

**Set your business free!**

Experience a revolutionary concept for e-commerce

# ScriptServer

## – intelligence made easy

Easy to use frontend software integrated with your business system: Experience the advantages of the unique shared ScriptServer platform, divided into applications that fit your business needs: TradePoint e-commerce. BusinessPoint Intranet, WebPoint Content Management System and InfoPoint File Management System.

## Just let it grow

The unique thing about the ScriptServer applications is the shared intelligent platform. It gives you and your business the flexibility to grow with ease – no matter what ScriptServer product you choose now or in the future.

ISV/Software Solutions

# Life is sweet when customers **boost your sales 24/7**

Set your business free on the web. Forget office hours and offer unlimited service and access to your business 24 hours a day. It is easier than ever to establish a user-friendly webshop with self-service for your customers, based on real-time integration with your business system. TradePoint is the new generation of e-business solutions that lets you embrace the global market through a simple and straightforward process.

## Unleash the power

Why build yet another system when you already have one? Why not try a powerful e-commerce platform, where both prices and inventory is immediately updated during the order process? Experience the advantages of seamless integration between TradePoint and your chosen business system. Experience power at your fingertips.

### Real-time integration to:

- XAL
- Sage
- Microsoft Dynamics AX
- Microsoft Dynamics NAV
- Microsoft Dynamics C5

Feel free to contact us for information if you have another business system.

## Features in focus

### Easy self-service

Customers can view current stock and order status on-line, view order history and edit company details. It is direct access and direct action. In short: a positive experience.

### Customized design

Choose an on-line design for your webshop that suits your products, your company and your brand. TradePoint is easy to set up, maintain and scale.

### Electronic billing

TradePoint is flexible and safe – and lets you offer your customers multiple payment options like secure credit card payments, check payments, payment on delivery etc.

ISV/Software Solutions

### Sign of trust and competence

ScriptServer is a Microsoft ISV/Software partner. We embrace the Microsoft infrastructure technology.

## The right decision - made easy!

IT solutions often involve different departments and several decision makers, each with different and sometimes conflicting interests.

To try and make the decision easier for you, we have colour coded all the benefits. So pick your own point of view and let the colour guide you.

ADVANTAGES:  
**CEO**  
POINT OF VIEW

ADVANTAGES:  
**CFO**  
POINT OF VIEW

ADVANTAGES:  
**COMMUNICATION**  
POINT OF VIEW

ADVANTAGES:  
**IT**
